

ALIVE INSIDE: A STORY OF MUSIC AND MEMORY

Special Free Screening Coming to a Theatre Near You!

It's FREE, and you're invited!

Watch elders who were essentially unreachable "come alive" when New York social worker Dan Cohen provided iPods loaded with their favorite music. "Alive Inside" documents how music can provide meaningful activity, and improve neurological function and quality of life for nursing home residents with Alzheimer's disease and other conditions.

This truly inspirational and heart-warming film reveals how powerful music can be in the lives of elders. Discover how this program comforts elders and can help boost efforts to reduce inappropriate use of antipsychotic medication.

You won't want to miss this special opportunity. We look forward to seeing you!

All the way from New York...Dan Cohen, MSW, founder and executive director of Music & Memory will attend the screenings for a question and answer session! Alive Inside run time: 73 minutes.
