Interact Tools 4.0

Reducing hospital re-admissions is just one of many ways to use the Interact Tools in your facility. They can also drive the process of assessment, notification, and provide some intervention ideas as well. Their use can guide your nursing staff on proper physician notification and improve the communication between your charge nurse and C.N.A.'s. Using the guides can also help improve documentation. We will create a template for a charge nurse guide for each facility to use and develop best practice implementation ideas through group deliberation. Join us for this exciting approach to Interact 4.0

ABOUT THE PRESENTER

Cheryl Parsons is a registered nurse, long-term care administrator, former skilled facility owner, author, long-term care consultant, speaker and informal dispute resolution reviewer. She has over 36 years of combined nursing, administration, ownership and consulting experience in the industry and has received awards in recognition of her accomplishments and dedication to improving long term care. Cheryl speaks passionately about person-centered care and has dedicated a large part of her speaking career to motivating providers at all levels to leave the institutional model behind. She has published two books, "The Core Building Blocks of Quality in LTC," and "The Crucial Role of Social Services in Long Term Care." In addition she has prepared and spoken on, over 500 seminar programs on various issues which challenge the industry. In July of 2011 she began work with Primairs, Missouri's Quality Improvement Organization, as an Informal Dispute Resolution Reviewer and recently stepped down from that position to take a full time administrator position at Big Spring Care Center in Humansville.
